

Report on SCEL Feuerstein Training 2009

The Southeastern Center for the Enhancement of Learning (SCEL) conducted its annual Cognitive Enrichment Workshops at Jones Memorial Community Learning Center in Metro Atlanta, Georgia during the weeks of June 8- 26, 2009. Training was offered for IE Standard, Levels I, II, and III; for IE Basic I, and for LPAD II. Trainers were Dr. Martha Wood, Dr. Jan Scott, Dr. Joyce Swofford, Dr. Elles Taddeo, and Dr. Lou Falik.

International participants in SCEL's 2009 Cognitive Enrichment Workshops came from Argentina, Thailand, Ukraine, and Canada. In addition to local attendees, U. S. participants traveled from California, Kentucky, Florida, Washington DC, and Hawaii. Guest trainer, Dr. Lou Falik, came from Israel.

Trainees will now be able to help students all over the world become better thinkers and learners. The SCEL staff considers these training classes to be a major part of our mission, and we are grateful that Jones Memorial can make space available for the training.

The intensity of the training can be verified by the fact that even our inexhaustible Conference Coordinator, Lois Collins, admitted to being "tired" at the end of the third week.
